

Assure Lock[®] Lever

Combining high security with cutting edge technology, the Yale Assure Lock[®] Lever is a high quality security solution for the contemporary home.

The Assure Keyless Lever is all you need on your front door. As a standalone digital lever, there is no need for an additional deadbolt lock, nor a latch or a separate door handle. Designed for single-hole doors (doors without a deadbolt). The Assure Lever is easy-to-install and conveniently replaces existing lever locks or knobsets.

Access is easy - simply enter your code on the keypad, pull down the lever and you're in.

Enjoy peace of mind, protected by a Yale Lock with 180 years of security expertise built in.

Trusted every day

Features

Touchscreen Keypad

Touch the Yale logo or screen to activate.

Locks Automatically

Lock by default, ensures your door is always securely locked when closed.

Battery Back-Up

Never lose power, the lock can be energized with a 9V battery.

Optional Settings

Customise auto re-lock, privacy mode and volume settings within the lock menu.

Mechanical Key Override

In the event your battery goes flat, you have a mechanical key override that will prevent you from being locked out. Remember to always keep your keys in a safe and convenient place.

(YRL226NRORB ONLY)

Smart Home Automation

Monitor access, lock and unlock your door from anywhere when you upgrade with the Yale Home APP Kit*, Zigbee or Z-Wave module** and integrate into a compatible home automation or security system.

*Yale Home APP Kit includes (sold separately), DoorSense™, Yale Home module and Yale Connect Wi-Fi bridge for remote access. **Network modules sold separately.
