

DYNEX

DYNEX OPTIVENT®

Enhanced Cavity Closer Innovation

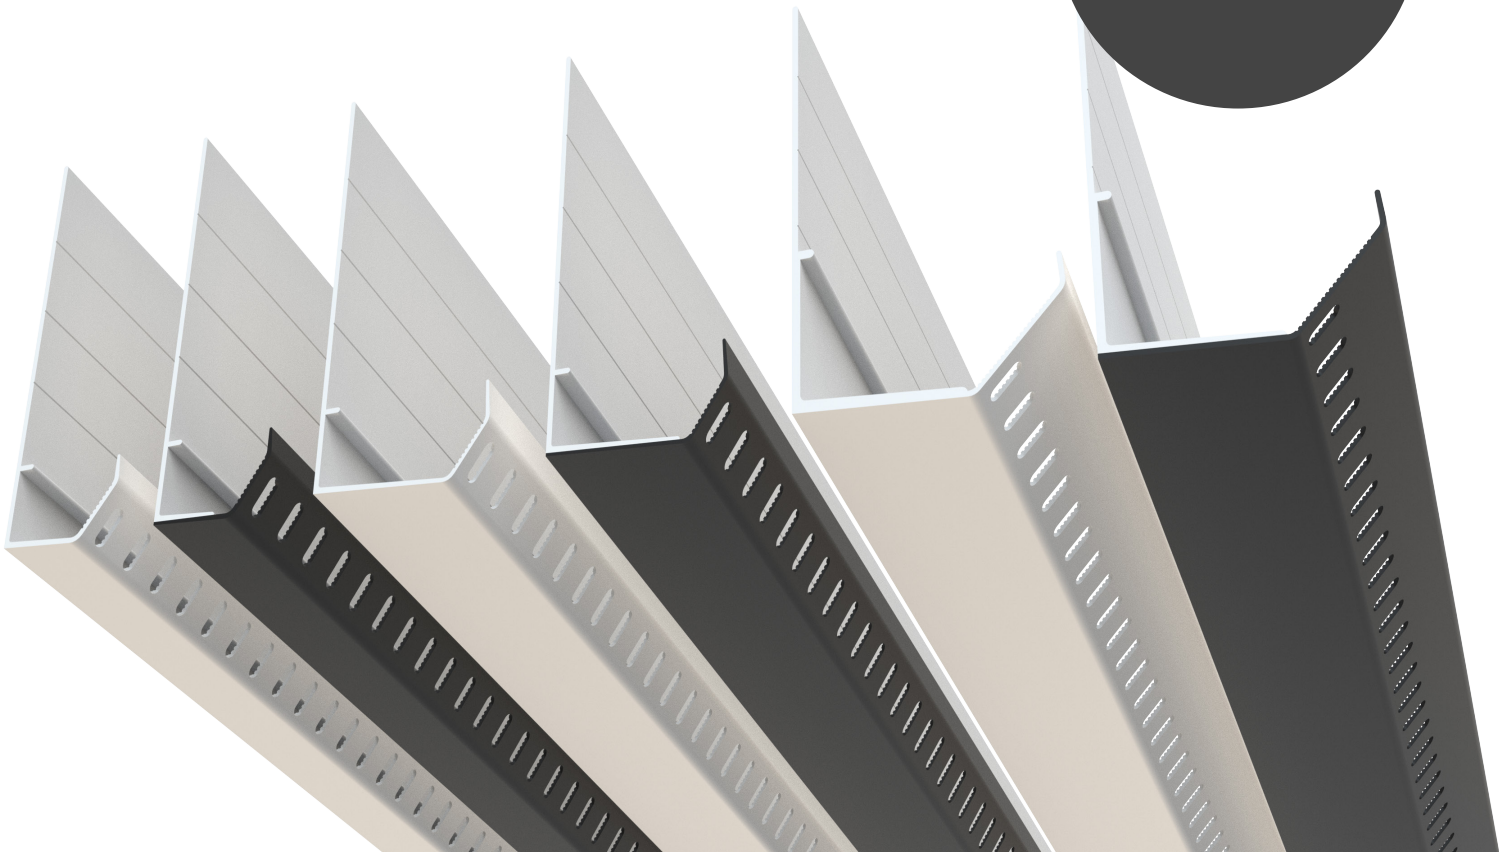

Dynex Optivent® takes innovation to the next level, with discreet ventilation and unique horizontal nailing grooves for easier installation. Available in Graphite or White to align with the cladding colour, the obscured slots help deliver an improved aesthetic and better vermin control.

Made in New Zealand from UV and impact resistant materials, Optivent cavity closers are BRANZ appraised and available through leading building merchants nationwide.

AVAILABLE IN 3 SIZES

- 18-25mm, suitable for vertical cladding
- 30-35mm, suitable for weatherboards
- 45mm, suitable for 45mm cavities

Available in White
or Graphite colour
