What is MDF V-Groove PanelLine Brace

IBS MDF V-Groove PanelLine Brace has been specially designed and developed for the New Zealand market to give that colonial style character using modern manufacturing methods.

If you are after a high-quality paint finish for your wall or ceiling lining then IBS MDF V-Groove PanelLine Brace is your best option for any internal lining. The clean and precision cut V-groove along with MDF from Nelson Pine means that you get a great paint finish every time.

IBS MDF V-Groove PanelLine Brace is more impact resistant than other wall lining options and makes a great Dado Line or use a full length sheet.

IBS MDF V-Groove PanelLine Brace is a medium density fibreboard (MDF) manufactured by Nelson

Pine Industries Limited from Pinus Radiata in accordance with AS/NZS 1859.2.

IBS supplies MDF V-Groove PanelLine Brace to be used as an internal lining with bracing capacity.

Uses for IBS MDF V-Groove PanelLine Brace include:

- an internal wall bracing system
- a full or partial wall lining
- a ceiling lining.

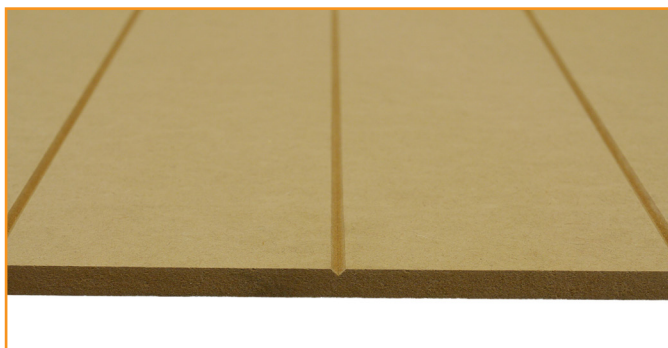

The panels are available with a V groove profile running the length of the panel for easy horizontal or vertical fixing. The ends have a tongue and groove for seamless width joints.

Key features

- Cost effective ceiling and wall lining
- High quality surface paint finish
- Excellent bracing capacity
- Manufactured from premium grade MDF
- High impact resistance
- Easy to use
- No special tools required
- Certified low chemical emissions
- Tongue and groove ends for seamless width joints
- Available with a V profile
