

LD 400

Rung Ladder Systems

Robust and lightweight, Sayfa's fixed ladders are robotically welded with high-grade aluminium for precision perfect finishes. A wide range of fixing, brackets and ladder modules deliver solutions for all roof types and elevated access applications.

Delivered as a flat pack, modular system direct to site, Sayfa's fixed ladder systems introduce on-site measurement flexibilities for easy, precise installation. Used in conjunction with handrails, cages or fall protection systems, Sayfa offers a complete building access maintenance solution. Available ex-stock to meet demanding lead times, our fixed ladder systems can be powder coated to suit your building aesthetics.

Compliance

Sayfa's range of modular fixed ladder systems complies with Australian Standard AS 1657-2013.

Applications

- Access from ground to roof or ceiling space
- Access between varying roof levels
- Access from main roof to canopies

Product Range

KATT / ARRESTA

LADDER TYPES	GRABRAILS 1.0M LANDING	GRABRAILS, PARAPET PLATFORM & 1.0M LANDING	2.4M ADJUSTABLE ACCESS KIT	INTERNAL ACCESS	MIDWAY LANDING PLATFORM - INTERNAL ACCESS	MIDWAY & TOP LANDING PLATFORM
LD20 MINI LADDER	 LD21	 LD22		 LD24		
LD30 ANGLED CAGE LADDER	 LD31	 LD32	 LD33	 LD34	 LD35	 LD36
LD40 VERTICAL CAGE LADDER	 LD41	 LD42	 LD43	 LD44	 LD45	 LD46
LD50 VERTICAL FALL ARREST	 LD51	 LD52	 LD53			

- All fixed ladders above 3.5M require fall protection.
- A risk assessment must be carried out to identify the most suitable form of access.
- Additional fall protection may be required to ensure safe access/egress.
- Australian Standards states that the preferred angle for rung ladders should be 75°. Vertical ladders should only be used if angled caged ladders are not practicable.
