

FRAMED BALUSTRADE

FRAMED BALUSTRADE

Features

- Strong durable non weld aluminium construction.
- Temper grade alloys specified by engineers. These alloys give the system optimum strength characteristics, corrosion resistance and have a high architectural grade surface finish.
- Great selection of quality powder coated and anodized finishes, to compliment or contrast with your property.
- Fully concealed fittings for greater aesthetics and protection from corrosion.
- Choice of handrail profile design options.
- All products comply with AS/NZS 1170.1 Structural design and design loadings along with NZ4223 NZ Glazing standards and AS 1926.1 Swimming pool safety standards.

Options

- Obscure or tinted toughened safety glass.
- Various handrail styles.

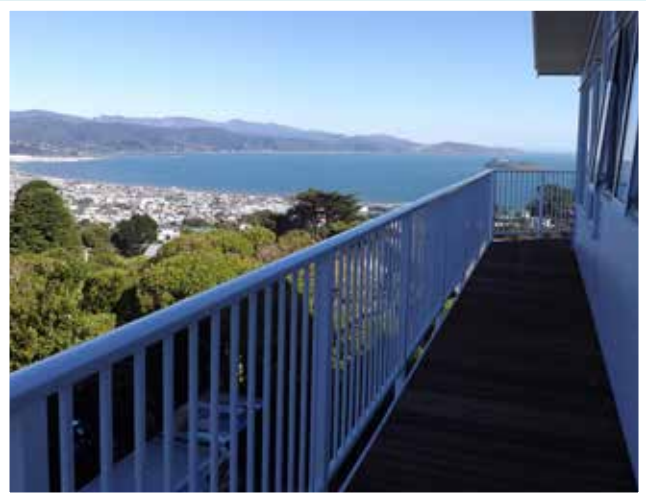

Residential & Commercial

- Provista Balustrade Systems have been designed to comply with both residential and commercial building regulations.

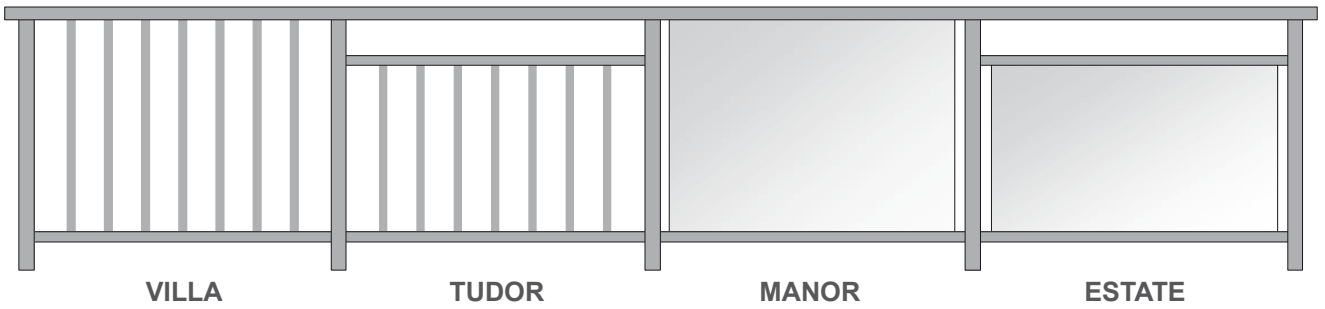

Quality New Zealand designed and produced. Provista Balustrading has been designed to compliment your property while ensuring safety for you and your family.

A great look, with or without glass, and for all home styles.

Handrail Options

EURO

Enhanced classic style, designed to compliment contemporary architecture.

AIRO

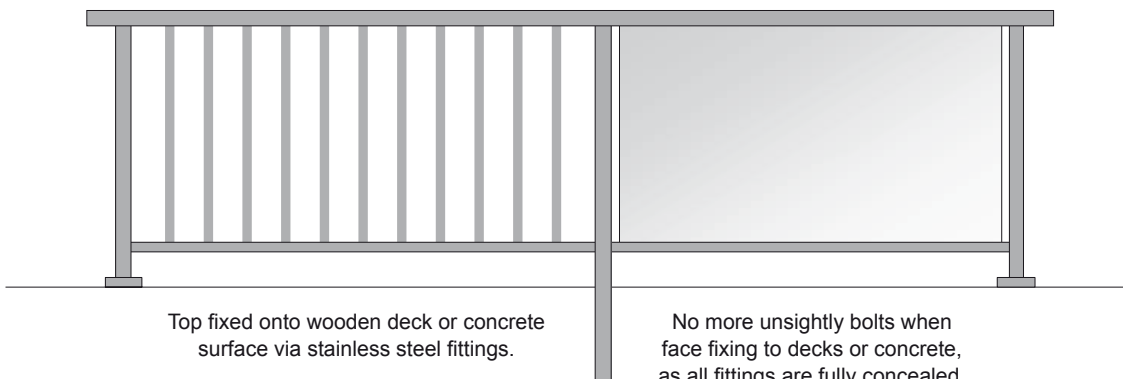

Sleek yet bold. An ideal compliment to modern achitectoral styling.

RETRO

Sleek classic lines, ideal for modern architecture. Make a statement with a touch of yesterday.

Fixing Methods

Top fixed onto wooden deck or concrete surface via stainless steel fittings.

No more unsightly bolts when face fixing to decks or concrete, as all fittings are fully concealed.
