**47
mm
DEPTH**

**35
mm
MIN SPACE**

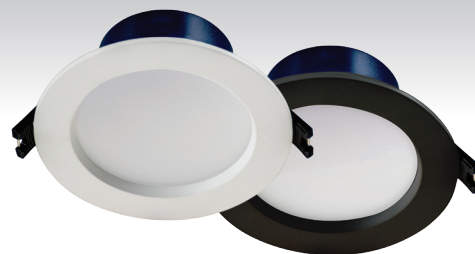

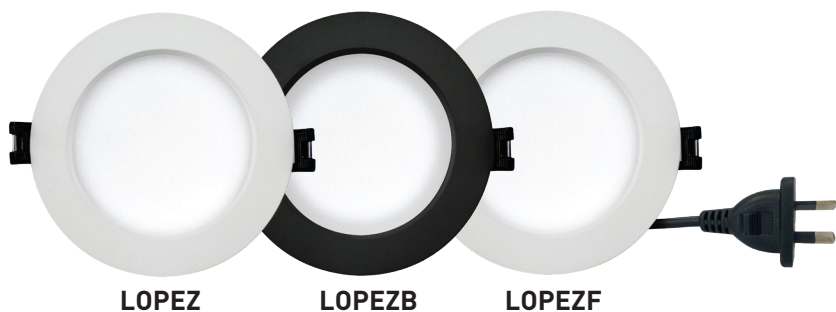

DESIGNED TO FIT INTO TIGHT ROOF SPACES.

We've taken our popular Jolie downlight and made it slimmer to fit in those tight roof spaces.

With a depth of just 47mm, the new Lopez fits perfectly under a ceiling truss.

Easy to install with quick connect terminals, or flex & plug (LOPEZF), the range has 3 colour settings, is dimmable and a 100° beam angle.

The Lopez downlights are safe to use around insulation with IP54, IC-F and IC-4 ratings, and is perfect for a wide range of applications.
