

## GROUNDSCREW FOUNDATION SYSTEM

### Project details

Project address

Legal description

Design scope

Engineer name

CPEng #

### Ground conditions

Soil type allowed for in Table 2 STOPDIGGING! Ground Screw Design Guide

Soil suitability has been confirmed through testing (test report attached)

Ground conditions to be established post consent via static pile testing

Ground conditions to be confirmed via post consent static pile test founded in accordance with the Geotech Report name, author, #

### Design & test loads

Specification of design & test loads rely on

Table 3 STOPDIGGING! Ground Screw Design Guide

CPEng engineer, foundation design SED

Table 4 STOPDIGGING! Ground Screw Design Guide

Where design & test loads are specifically engineered

Fixings specifically engineered by named CPEng engineer

### Declaration

By signing this declaration you confirm that all conditions of the CodeMark Certificate as they apply to the design of the STOPDIGGING! Ground Screw Foundation System have been met.
