

MPS

Multi Purpose Support

SIMPSON
Strong-Tie

To suit bottom of bearer or joist heights from 90mm to 150mm

The Multi Purpose Support (MPS) has been designed as a mid-sized support. The MPS has excellent adjustability, along with the strength and versatility to be used with either bearer or joist combinations, or with joists on their own.

Features & Benefits

- Unique design provides significant load-bearing capacity for a relatively light-weight product.
- Provides top of joist/bearer heights between 180mm and 430mm off existing concrete surface.
- Provides bottom of joist/bearer heights of between 90mm 150mm.
- Highly versatile for bearer or joist combinations, or with joists on their own.
- Available in "kit" form, it is efficiently packaged and quick and easy to assemble.
- All components are fully hot dip galvanized which ensures long life-span without failure.

Material

Carbon Steel

Finish

Hot Dip Galvanized

Note: No screws or anchors are included

Designed and Tested

Simpson Strong-Tie® connectors have been designed and tested for use with specific types and sizes of nails or screws. The specified fastener size, type and quantity must be installed in the correct holes on the connector to achieve published loads.

Other factors such as the fastener material and finish are also important as the use of incorrect fasteners or misinstallation can compromise the connector performance and could lead to failure. Simpson Strong-Tie has a broad range of fasteners designed to suit our range of connectors.
