Introduction

This classification report defines the classification assigned to the product '**Lexan Thermoclick LTC404X4000 & LTCIR404X40**' in accordance with the procedures given in the standard EN 13501-1+A1: 2009: Fire classification of construction products and building elements - Part 1: classification using data from reaction to fire tests.

This classification report consists of 5 pages

1. DETAILS OF CLASSIFIED PRODUCT

a) Nature and end use application

The product **Lexan Thermoclick LTC404X4000 & LTCIR404X40** is defined as a 'polycarbonate multi wall'.

Its classification is valid for the following end use application(s):

'Exterior and interior glazing applications'.

b) Description

The tested product is a polycarbonate multi wall sheet with a groove for double sided tie on the inside. See Image 1.

	Nominal values
Colour	Softlite (Opal White) color (SOFTL)
Organic pigment loading (%)	0,302
Structure	Five wall X-structure (see image 1)
Thickness (mm)	40
Surface mass (g/m ²)	4000 ± 5%

3. CLASSIFICATION AND DIRECT FIELD OF APPLICATION

a) Reference and direct field of application

This classification has been carried out in accordance with EN 13501-1+A1: 2009.

b) Classification

The product **Lexan Thermoclick LTC404X4000 & LTCIR404X40** in relation to its reaction to fire behavior is classified as:

Fire behavior	Smoke production	Flaming droplets
B	s2	d0

c) Field of application

This classification for the product as described in §1b, is valid for the following end use conditions:

- Self supporting
- With or without a void
- With protection of cut edges
- No Joints

This classification is valid for the following product parameters:

- Nominal thickness : 40 mm
- Nominal mass per unit area: 4000 g/m² ± 5%
- Colour: All colours

Color Number	Color
SOFTL	Softlite (Opal White) color

4. RESTRICTIONS

At the time the standard EN 13501-1+A1:2009 was published, no decision was made concerning the duration of validity of a classification report.

5. WARNING

This classification report does not represent type approval nor certification of the product.

The following statement is included in accordance with Fire Sector Group Recommendation 001rev2:

The classification assigned to the product in this report is appropriate to a declaration of conformity by the manufacturer within the context of a system 3 attestation of conformity and CE marking under the Construction Products Directive.

The manufacturer has made a declaration, which is held on file. This confirms that the product's design requires no specific processes, procedures or stages (e.g. no addition of flame-retardants, limitation of organic content, or addition of fillers) that are aimed at enhancing the fire performance in order to obtain the classification achieved. As a consequence the manufacturer has concluded that system 3 attestation is appropriate.

The test laboratory has, therefore, played no part in sampling the product for the test, although it holds appropriate references to the manufacturer's factory production control that is aimed to be relevant to the samples tested and that will provide for their traceability.
