

# Multicolonna

## Advantages of Multicolonna

The quality of Multicolonna is obvious whichever way you look at it. The glossy finish of the three-phase painting and soft rounded lines of the elements make it so attractive it becomes a genuine interior design accessory wherever it is installed.

A popular choice for renovated homes due to its traditional style, the Multicolonna can be either wall hung or set on traditional feet. Its traditional style can be given a more contemporary edge with custom colour choices (the radiator comes in white as standard). DeLonghi's in-depth study of thermodynamic flows has made this radiator one of the best blends of efficiency and design on the market and, of course, it comes with DeLonghi's 25-year guarantee.

- Large range of colours available
- Custom sizes made to order
- 25-year warranty
- Custom valve orientation
- Available in 2, 3, 4, 5 and 6 columns
- A quality painting process used in the automotive industry

## Available Models

The Multicolonna is available by indent order only. As such, we can import the exact size required for your project direct from the manufacturing plant in Italy.

It comes in sizes ranging from 300 to 3,000mm high and 486 to 2,786mm long. Depth depends on the number of columns, which ranges from two to six. The Multicolonna's output ranges from 100 to 10,000W. The size of the radiator is determined by output requirements and the space available.
