

# ASSURE

## Fence panel and pedestrian gate

Stylish, secure, and adaptable, the Assure fence panel looks great every way you look at it. Its versatility, being able to install the panel upside down is a big part of this panel's appeal and the option to use Assure raking panels to meet the demands of steep terrain without requiring custom panels. Residential placement often uses the panel with the studded side up, and the flat-top option makes it ideal for the public, school, and childcare environment. The robust aluminium construction from high quality materials ensures years of low maintenance security that can withstand the harsh New Zealand environment.

### FEATURES:

- Contemporary design
- Lightweight and easy to install
- Low maintenance aluminium construction
- Exclusively available as raking panel up to 30 degrees
