## APEX Soft Close Sliding door kit

The Apex Soft Close Sliding door kits are designed for popular glass sliding doors in homes, offices and customer facing displays. Designed to work with 10–12mm glass and smooth running, hydraulic soft close feature makes this a popular well priced solution. No holes or cut-outs are required in the glass making it a simple, fast and cost-effective system.

The Slim 83 x 53mm sliding track profile is designed to accommodate for top fixing, side fixing, or sidelight glass mounting and is supplied in a ANO or Black finish track, plastic end caps, 2 x door guides, 2 x soft close and wheel runner kits and stoppers along with a finger pull and fixings. Maximum door weight 120 kgs.
