NICKS

Aluminium Angle Picket Fence Panel

A modern architectural styled panel with striking vertical angle picket closely spaced to accentuate the vertical lines of the house. Fence panels, balustrade panels and a matching series of gates compliment the range.

Nicks Panels are all custom made in our Silverdale factory and can be supplied with matching posts. Pedestrian gates and driveway gates will be made to the size of your driveway in our fabrication department, and can be supplied with suitable gate motors for a qualified technician to install. Typical lead times are 2-3 weeks.

Design Details

Nicks Plated Balustrade panels don't need posts. They are attached to the deck joist or balcony slab by bolting through the large plate that forms the bottom of the panel. The design is also pool compliant for balustrade around your deck.

- Long lasting and low maintenance
- Lasts longer than timber
- No warping or fading
- Smooth finish and clean look
