Designer Tiles™
Direct Fix

Product overview

dbTile™ range of high-performance acoustic panels are available with Ready-Clip™ direct fix. The complete panel and mounting system is ideal for ceiling and wall applications.

Tiles™ acoustic panels can be created in a variety of designs, thicknesses, colours and finishes. The mounting system ensures precise, speedy installation, without visible fasteners or smelly adhesives for a solution tailored to your space, your vision, and your budget.

Because our innovative Ready-Clip™ fast mounts require no glue, it means our acoustic panels become 100% recylclable and reusable.

Applications

Ceiling & Wall:
Office interiors, Showrooms, Hospitality, Education and Residential.

Benefits

Precision installation

Self-aligning male-female socket system for accurate panel fitting

Ability to set defined gap (negative detail) for consistent spacing of panel from surface

No adhesives

100% recylclable and reusable

Great for installing in occupied or limited ventilation spaces

No concern of glue overspray

Low cost of make-good at end of tenancy

Easy install & removal

5Kg pull out-load per Ready-Clip™

Clip lead in for fast, easy fitting

Less time and mess on site

CUSTOMISATIONS

Rebated edge

V- Groove
Chamfered edge

Custom prints/schemes
Monochromatic
Polychromatic

Ready Clip™ system
