

PRODUCT DESCRIPTION

Premium performing Tube Skylight. Available in 250mm & 350mm diameter

KEY BENEFITS

- High performing during summer and when the sun is high in the sky.
- Unique triple glazed Lens
- Dimmable: With our daylight dimmer accessories you take control of the sun.
- Round corners and horizontally: With angle adapters and highly reflective tubes there are no barriers to where the light can go.
- Flexible install: Domes can be installed almost anywhere on your roof, they don't need to be right near the diffuser.
- Modern look: With multiple diffuser options to choose from including square there's a look to suit every space.
- Peace of mind: we offer 10 year product warranty when using our proprietary roof flashings

APPLICATIONS
