New Zealand's most advanced weatherboard system.

Garrison®
by claymark

Experience Claymark's Triple Protected Treatment. Unlike anything else in the market, three barriers of protection ensures your Garrison weatherboard lasts a lifetime*

1 Tru-core® Treated

- Unique carrier system penetrates microscopic channels in resins and glues
- 100% penetration of the Sapwood and Heartwood
- No damage to the wood structure
- No volatile organic solvents or harmful chemicals!
- 3 EPA registered and globally recognized fungicides
- 2 EPA registered and globally recognized termiticides
- 5 decay and termite actives

*In accordance with manufacturers warranty statement

2 New Generation Sealer

- Resists water uptake
- Resists resin/tanin bleed
- 100% Solids eco friendly technology
- UV cured seal coat

3 100% Acrylic Undercoat (Two Coats)

- Garrison primer system utilizes new generation Acrylic technology
- Waterborne technology
- 100% Acrylic composition
- Provides better adhesion, flexibility and weathering
- All 4 sides are evenly coated

— Weatherboard Information

Over the course of the last century weatherboard has endured itself as New Zealand's No. 1 home cladding of choice. Perfectly suited for New Zealand's changeable weather conditions and a superior choice for environmentally conscious Kiwis, coming from renewable managed resources.

Next Generation Weatherboard

Garrison is the next generation of treated finger-jointed pine, precision manufactured from Claymark's premium radiata pine blocks. A next generation patented treatment, Tru-Core®, is used to preserve and extend the life of the wood. This waterbased, eco-friendly treatment penetrates right to the core and has a proven history of performance. This gives state-of-the-art protection, resists tannin and resin bleed and provides better adhesion and flexibility, while being safer and more environmentally friendly than traditional oil – or solvent-based coatings. Claymark backs Garrison with a 15 year Written Limited Warranty.

Garrison is the first choice for any job that requires a superior finish. But it has more than great looks in its favour. It is an environmentally sound product, sustainably grown and precision manufactured in New Zealand to Claymark's exacting standards.

Garrison Information

Garrison Weatherboard features:

- Perfect finish
- 100% acrylic coating for better adhesion, flexibility and to prevent tannin and resin bleed
- Primed weatherboard boron treated & factory primed, treated using the Tru-Core process to H3.1 standard
- Deep Tru-Core protection means no re-treatment required for any field cutting, drilling or nailing.
- Tru-Core meets and exceeds New Zealand Standard 3640:2003
- Garrison is manufactured from premium radiata finger-jointed pine
- Garrison is cut to standard lengths of 6.1m
- Kiln dried target moisture content between 10 – 14%
