

FRAMELESS GLASS BALUSTRADE SYSTEMS

EDGETEC® JH CLAMP® FRAMELESS GLASS BALUSTRADE

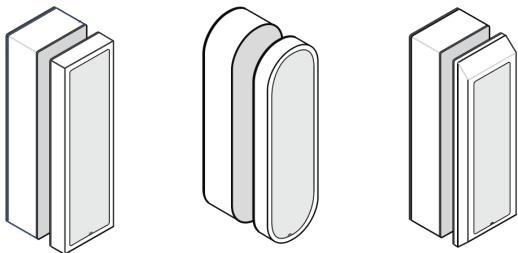

NEW TO THE JH CLAMP BALUSTRADE SYSTEM

The Juralco Edgetec® JH Clamp balustrade is a frameless glass system that uses a minimalist aluminium clamp, now available in 3 shapes that can fix toughened glass to the face of decks, balconies, and stairways.

Supporting glass from 12mm Toughened up to 17.52mm SentryGlas™, the system has three clamp styles to choose from and can be orientated either vertically or horizontally.

+ THREE STYLES FOR UNIQUE DESIGNS

With Square, Round, or Chamfered styles, you can choose an aesthetic to suit your architectural design.

+ POWDER COATED TO A WIDE RANGE OF COLOURS

All Juralco products can be powder coated to a wide range of colours. Turn your JH Clamp into a design feature, or have it blend into the colour of your building.

+ USES A WIDE RANGE OF GLASS TYPES

JH Clamp is a highly versatile product that can be used with glass thicknesses ranging from 12mm - 17.52mm, using either toughened glass, toughened laminate glass or SentryGlas™. The use of Interlinking handrails or stiffener brackets are required for balustrade installations (Excludes pool fences).

+ LIGHTWEIGHT & STRONG

Precision-engineered Aluminium for an incredibly good strength-to-weight ratio.

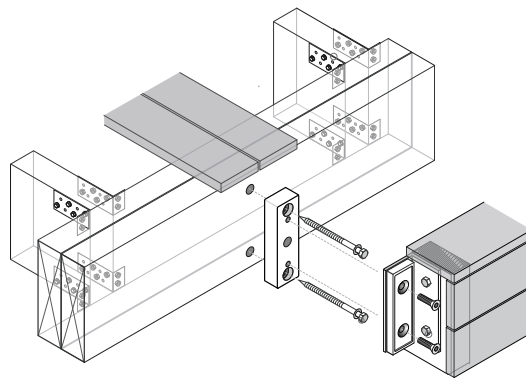

+ HIDDEN FIXINGS

There are no visible fixings when installed. Leaving a clean and minimalist design.

FRAMELESS GLASS BALUSTRADE SYSTEMS

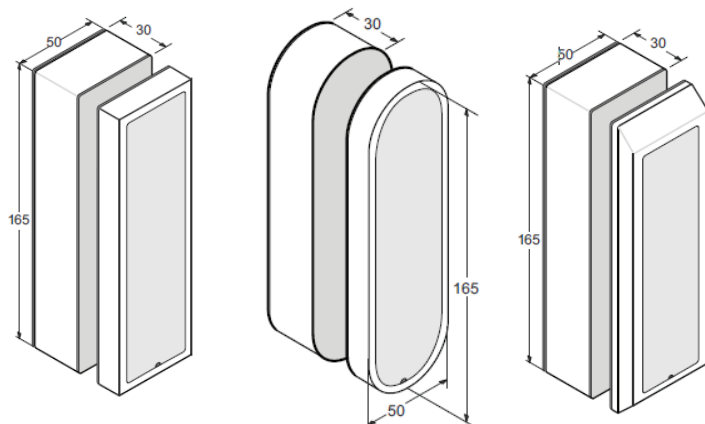

The Edgetec® JH Clamp Frameless Glass Balustrade and Pool fencing system can be installed vertically or horizontally.

JH Clamp can be used to create hidden fixing decks for the ultimate seamless design.

Juralco designs our systems to fit a wide range of scenarios and architectural requirements. With comprehensive design resources available from CAD through to fabrication manuals, Juralco balustrade systems are as stunning for the end user as they are functional for designers and installers.

Available in three shapes to fit any architectural design.
